

Apple Pay™ FAQs

What is Apple Pay?

Apple Pay lets you pay for purchases with your iPhone 6 or iPhone 6 Plus by holding your phone near a contactless reader. You can also use your iPad Air 2 and iPad Mini 3 to pay for purchases in participating apps.

What do I need to get started with Apple Pay?

To use Apple Pay, you'll need the following:

- iPhone 6 or iPhone 6 Plus to pay in stores and within apps
- iPad Air 2 or iPad Mini 3 to pay within apps
- iOS 8.1 or later
- Touch ID or passcode on your device
- iCloud® account

Which EECU cards can I use with Apple Pay?

Members can add their EECU debit card to Apple Pay starting on Tuesday, October 6, and their EECU credit card as of Tuesday, October 20.

Are my payments safe with Apple Pay?

Yes. Apple Pay doesn't store your EECU card number on your phone or give it to the merchant. A unique digital code is created specifically for that device.

When I add my EECU card to Apple Pay, will it look exactly like the card in my wallet?

Apple Pay uses a graphical representation of your EECU card and in some cases it will not look exactly like the card in your wallet. But it will look very similar to your actual card.

How do I change my default card to my EECU card?

The credit or debit card associated with your iTunes® account or the first card you add to Passbook is your default card. To change your default card:

1. Go to Settings > Passbook & Apple Pay
2. Tap Default Card
3. Choose the EECU card you want to set as your default card

Which merchants are participating?

You can use Apple Pay at hundreds of thousands of stores, including BJ's®, McDonald's®, Macy's®, Nike®, OfficeDepot® and ToysRUs®.

Where can I learn more about Apple Pay?
